NATIONAL EMS WEEK – MAY 17TH – 23RD

EMS Week brings together local communities and medical personnel to honor the dedication of those who provide the day-to-day lifesaving services of medicine's frontline.

Thank you to the EMS professionals on the frontline of the COVID-19 crisis. We understand that the 2020 EMS Week is probably not a top priority as the COVID-19 crisis continues. We all recognize that EMS professionals are on the frontlines of the crisis every day--planning, adapting, and responding to take care of their citizens and communities. This has occurred while dealing with challenges such as lack of access to appropriate PPE as well as while being in contact with people who are stricken with COVID-19. Now more than ever, it is important that we honor and celebrate our EMS professionals supporting the health and well-being of our nation. Especially those brave individuals who give the ultimate sacrifice with their lives.

We send our best wishes for the safety and health of all EMS personnel on the first lines.

COMMUNITY POOLS DURING STAGE 3-

Please note that community pools may or may not open based on the individual city's criteria.
