A Conference Call with Representative Walorski

During the last couple of weeks, as our team has reached out to area businesses, it continues to be made clear that there are still so many questions about next steps. These questions are highly personal to the businesses, the questions are focused on the government response, the questions relate to when getting back to normal or what will normal be, and what action steps we should be taking now in preparation for the day they reopen. All great questions as every day we are one day closer to a new reopening.

The Legislative Affairs Council here at the Greater Elkhart Chamber of Commerce, like many of our other councils, has continued to work to ask the best questions of the right people on behalf of Greater Elkhart business community and then get that information back to you. To that end, it is important, when possible, for our membership to hear first-hand from those decision makers at the forefront of our response and pro-active approach to our current and future health and economic situation.

April 27, from 10 – 11 am, the Greater Elkhart Chamber of Commerce Legislative Affairs Council will be hosting a conference call with Representative Jackie Walorski. She will share updates on the current state of the economy and the road to reopening, the stimulus check program, ongoing COVID-19 Congressional response, and then answer questions from participants. To be a part of this conference call you will need to register. Once you have registered, you will be given the link and access code to join the Zoom conference call.

We continue to provide updated information on economic related issues on the [COVID-19](#) section of our website. We are adding to the page almost daily and are appreciative of our partners who are helping us provide great resources to our Greater Elkhart business community.

Have a safe week of following the CDC guidelines and the Governor's Stay at Home order. Every day we are productive at adhering to those guidelines the sooner we can have positive outcomes.

Levon D. Johnson
President/CEO
Greater Elkhart Chamber of Commerce
